The CCR Expo conference presents a highly distinguished international faculty, offering a unique opportunity to deepen your knowledge and expertise, and discover new approaches and techniques.

Uniting surgical and non-surgical practitioners, CCR Expo is a major international platform for the exchange of ideas, the pursuit of best practice and the sharing of knowledge, insight and experience.

Join experts from all disciplines at this ground-breaking event to explore, debate, question, learn and contribute to the future of aesthetic medicine.

OUR MEDICAL ADVISORY BOARD
The two-day conference is programmed, and content steered, by the members of our expert advisory board, chaired by Mr Norman Waterhouse (FRCS Plast).

CCR Expo continues to examine the latest advances in techniques and technology in plastic surgery. A superb international faculty includes Foad Nahai, Lorne Rosenfield, Malcolm Paul, Patrick Tonnard, Patrick Trevidic, Wolfgang Gubisch, and Dennis Hurwitz. I am also delighted that the meeting is multidisciplinary and a strong UK faculty examines ear reconstruction and pinnaplasty with experts from otorhinolaryngology, ophthalmology, and plastic surgery.

The non-surgical programme also looks exciting, offering insights on beautification and rejuvenation, toxins, volume augmentation and reduction from a top-class faculty including Hema Sundaram, Nick Lowe, Raj Acquilla, Raina Zarb Adami and many other leading experts. Plus, The Great Live Debates of 2014 will again address contemporary issues.
